## UNDER CONSTRUCTION

### AOT Maintenance Garage White River Jct., VT

CCS has completed erecting steel at this new 16,000 sq. ft. structure and will return shortly to complete the miscellaneous metals package.

### Jackson Labs

Bar Harbor, ME

*Complete*

*See photo left*

### Ben & Jerry's Extra Chunk St. Albans, VT

CCS is constructing six new buildings as well as performing renovations in two additional structures.

### City Market Burlington, VT

CCS is setting steel at this new 55,000 sq. ft. grocery store.

### Dover High School Dover, NH

CCS is doing decking and detail work at this 300,000 sq. ft. new high school.

### Imerys Talc Project Ludlow, VT

The main portion of this project entailing structural steel, diamond plate flooring and metal deck is complete and CCS is now working on the inside shipping center. Additionally, CCS set all the stair units and used a crane to set numerous units (up to 22,000lbs) inside the building.

### Jackson Lab Bldg. 250 Expansion Ellsworth, ME

CCS is converting an old Lowe's building into a medical lab by adding 1-3 levels of interior steel to this 48,800 sq. ft. structure.

### Stowe BRF 0235(15)

Stowe, VT

CCS replaced this 142' bridge with a new 5 girder structure.

*Complete*

*See photo right*

### Global Foundaries Essex Jct., VT

CCS changed out the steel in one clarifier and is currently working on repairing another at this site.

### Medical Specialty Clinic Bldg. Lebanon, NH

*Complete see below*
